The latest news is that Congress
is about to agree upon a tariff bill
which will become a law next
week.

The recent hot wave in the West
has caused incalculable damage to
the crops in Kansas and Nebraska.
It is even feared it will be necessary
to ship corn into many counties to
allow farmers to run through the
winter.

The nomination of Congressman
Paynter for Judge of the Court of
Appeals will necessitate a special
election in the Ninth congressional
district to fill out his term. It is
officially announced that he will
resign in time to have the special
election called on the regular
November election day.

It is being charged by Owens
adherents at Lexington that all
employees of the Internal Revenue
service in the Seventh district
have been assessed in the further-
ance of Col. Breckinridge's candi-
dacy. The Breckinridge people
deny the charge, but the Owens
men claim to hold one of the let-
ters of assessment.

E. V. Debs has been granted an
appeal to the United States Court
of Appeals in the chancery proceed-
ings in the United States Circuit
Court. The appeal was granted by
Judge Woods at Indianapolis. The
appeal will stop proceedings in the
Circuit Court under the bill filed
July 2 on behalf of the railroads,
but it leaves the injunction in
force, and does not interfere with
contempt proceedings against
Debs and his associates.

China and Japan are at war over
a dispute about Korea. They have
been fighting for a week or more,
but the formal declaration of war
was not issued until Wednesday.
The Japs have come off victorious
in every contest thus far, and have
succeeded in destroying several
thousand Chinese troops without
much loss in return. Some of the
Chinese vessels have been sunk,
among them the best one in China's
navy. It promises to be a consid-
erable war.

Nothing is more absurd than to
talk about this country being scared
into a panic by having a conserva-
tive tariff reform bill shaken at it.
If the United States is as unstable
as that, the Republican reign of
thirty years has made it that way,
and it is a very dangerous condi-
tion for so powerful a country to
get into. Don't you think the Mc-
Kinley law in force has more to do
with the business of the country
and the government than some-
thing which might become a law
some time in the future?

For the Short Term.

It looks like there are plenty of
Democrats available for the
nomination for the remainder of
Hoe, T. H. Paynter's term in Con-
gress, whatever that may be when
he shall resign. Among the names
mentioned we remember those of
Bud Roe, of Greenup, Col. E. B.
Wilhoit, of Carter, S. R. Ireland,
Hon. S. S. Savage and Judge Hous-
ton, of Boyd, G. S. Wall, Judge
Phister and Judge Cole, of Mason,
Hon. Bolla K. Hart, of Fleming,
and Hon. W. M. Moore, of Harri-
son. It is too early for our people
to reach a conclusion. The best
interest of the party is the first
point with us. All those mentioned
are "mighty" good material and it
would be hard to decide between
them.

The people in the lower end of
the district are pushing Mr. Hart
into the race. He is very highly
thought of here and would be ac-
ceptable for anything for which he
might ask. The way his home
people "back" him and the absolute
confidence with which they pre-
sent him for places of the great-
est trust is highly complimentary
to him.

Among the mountain candidates
the name of Hon. S. S. Savage
seems to meet with much favor
here in connection with the short
term.

Mr. Paynter has not decided
when he will resign. There is
plenty of time in which to do so.

The developments caused by the
traitorous action of three United
States Senators in preventing a
thorough tariff reform bill to be-
come a law, show decidedly that a
large majority of the people of the
United States are still determined
to have tariff reform. No three or
four hundred men in this country
are able to thwart the will of the
people in such an important matter.
They may delay it, but the delay
will only be temporary. Now that
the full force of the McKinley law
as a measure of evil has been so
forcibly demonstrated in every
quarter of the United States by the
long and ruinous panic, the people
are desperately arrayed against
high protection. The battle will
be continued to the end.

Debs has declared that the last
strike was a failure and that no
strikes can hope to succeed.

Workmen Buying Rail- roads.

Rev. C. C. McCabe, Secretary of
that Methodist Missionary Society,
figures out a very plain and seem-
ingly easy way in which workmen
can get the better of the rail-
way magnates. His scheme is
simply itself. Stop drinking, he
says; save the money and buy
up the railroads and own them. It
will only make a matter of \$12,000,
000,000 or so to buy up all the
railroads in the country, according
to Poor's manual of 1893, as quoted
by McCabe, and the workmen of
the United States spend about
one-fifth of that amount each
year for beer and hard liquors. It
is an easy problem in arithmetic
which McCabe propounds to the
workmen of the United States. If
they drink up each year one-
fifth of the value of the value of
the railroads of the United
States, in fifteen years they drink
up their entire value. McCabe's
figures are \$900,000,000 a year for
the liquor bill of the whole country,
of which the workmen pay
\$750,000,000—a sum that would
count up pretty fast if laid away
each year at savings bank interest.
Mr. McCabe thinks a good deal of
his scheme. He is sure that "it is
practicable, it is feasible, it can be
done."

Perhaps, but the present owners
of railroad securities need not be
worrying about future investments
for their money just at present, nor
is there any likelihood that the la-
bor organizations will proceed at
once to put the scheme into their
platforms and make adhesion to
its requirements a condition of
membership. Nor will it become
offhand overwhelmingly popular
with the workmen themselves. It
will probably set some to think-
ing, for it is rather a startling lot of
figures that Mr. McCabe gets to-
gether. That men who work for
their daily bread, and most of
whom have no capital but their la-
bor, and no income but their wa-
ges, should waste money enough in
fifteen years to buy up the rail-
road systems of the United States
is enough to set a good many such
men figuring how much they have
thrown into that hole. Maybe
when some have done this figuring
and set down in plain numbers
what the tipping habit has cost
them, they will be enough
startled at the total to resolve to
draw the purse strings tight when
they go to the beer shop, and make
water answer as a throat quencher
in these hot times. Here and there
a man who has the impulse to get
ahead, and the courage and
strength of will to practice great
self-denial in order to enjoy a fu-
ture reward, may have this impulse
strengthened by such exhibits as
McCabe makes, but the majority
will stop just as often for their
glass of beer as though there were
no railroads to be purchased.

The serious trouble predicted by
the Democrats as the result of the
McKinley law has come to pass
and is even worse than predicted.
An unnatural inflation in certain
lines of business was the first result
and to those who look neither at
the past nor the future the condi-
tion was taken as favorable. The
illusion was soon dispelled, how-
ever, as the bubble of prosperity
burst all too soon. Then came this
long and trying season of depression
and panic which will be ended only
by the repeal of the infamous
law which has stopped the reve-
nues of the government; permitted
increases in the prices of goods and
put all the increase into the pockets
of the millionaire manufacturers;
exhausted \$100,000,000 surplus
annually to keep the government
going, until the treasury was bank-
rupt, when it became necessary to
meet the obligations of a billion-
dollar Congress by an issue of
bonds. Fortunately for the Re-
publican party the people hurried
them from power about the time
the panic began to be felt and the
badly wrecked and looted govern-
ment was placed in Democratic
hands to be nursed back to life and
prosperity. This is a tedious and
thorough task and has been drawn
out by three traitors who slipped
into the Senate under guise of
Democrats, and who have been
able, with the aid of the Republi-
can Senators, to delay Democratic
action. The party is not discour-
aged, however, and is as determined
as ever to accomplish tariff reform,
which it more firmly than ever, if
possible, believes to be the hope of
the United States.

PROSPERITY.

Died, on the 28th of last month,
Miss Dixie Haws, daughter of L. S.
Haws, of typhoid fever. She leaves
many friends and relatives to
mourn their loss.

Mont Adams, of this place, was
badly hurt a few days ago by be-
ing caught in a threshing machine.
His arm was dislocated and his
head was also cut very badly, but
he is improving at this writing.

J. W. Cornette left Thursday en-
route for Carter county, where he
will attend the examination for a
certificate to teach school in that
county. We wish him success.

Several of the young folks of this
place attended the foot washing at
Spencer's last Sunday.

The Sunday School at Elm Grove
is still progressing nicely.

Preaching at this place next
Saturday and Sunday.

Gus Dean was visiting on the
Big Branch Sunday.

Several of the Blaine girls attend-
ed church at Elm Grove Sunday.
Come again girls.

Success to the News and all con-
taining in Democracy, is the wish
of VIOLET.

WEBBVILLE.

Mr. Editor, since last we read
your paper there has been quite an
accident occurred in our back part
of the county.

Jerry Riffe Jr. shot and killed
Lee Voseley. Both parties were
drunk. They had been "taking in"
an excursion to Riverton and Mose-
ley said he was going to go back to
Willard and Riffe said he should
not go. A few words were passed
when Riffe said "I am going to
shoot you." The shooting took
place on Sunday and Moseley died
on Tuesday at 4 o'clock.

The boys were always the best
of friends and never before had a
word of trouble, but such is the
result of whiskey.

What must have been the feeling
of the father when the news reached
him of the shooting, when only
seven months and seven days be-
fore one of his sons had been
killed?

Since our last writing there has
been some change in the weather.
It has rained some and crops look
better at present than they have for
some time. We think it is because
we have a Republican who wants
to die if the Wilson Bill passes both
houses and the President signs it.
Let him go, God bless him. Let
him sink or let him swim. He
don't care for us and we know we
don't for him.

There is going to be a Republi-
can meeting here in Dry Fork vot-
ing district Saturday and there are
not enough Republicans to form a
quorum. Now I think Mr. A. L.
will make it hot for some good
Democrat. He says "I think I can
get 50 votes in all the precincts."
So do we and hope he may get as
much as that number to keep from
being "white washed."

With much success for the
News we are
TUE BETSY'S.

Mr. Thomas Bate, editor of the Graph-
ic, Texarkana, Arkansas, has found
what he believes to be the best remedy
in existence for the flux. His expe-
rience is well worth remembering. He
says: "Last summer I had a very severe
attack of flux. I tried almost every
known remedy, none giving relief.
Chamberlain's Colic, Cholera and Di-
arrhoea Remedy was recommended to me.
I purchased a bottle and received almost
immediate relief. I continued to use
the medicine and was entirely cured. I
take pleasure in recommending this re-
medy to any person suffering with such a
disease, as in my opinion it is the best
medicine in existence." 23 and 50 cent
bottles for sale by A. M. Hughes,
Louisville, Ky.

DREDFIELD.

Notreing anything from this
place for awhile will try to write a
few lines.

We are needing rain very bad.
Stock is suffering very much for
want of water.

George Carter, of Prosperity, vis-
ited his sister last Saturday. The
girls says come again George.

Miss Nannie Smith visited Birdie
and Laura Rose Saturday.

Crofford Wellman is digging a
well and says that he will have wet
water to drink now if it don't sink
to quick. I hope you will Crof-
ford, for it is hard to carry water so
far.

Millard Rose, of Dredfield, is at
Prosperity this week.

Miss Lacie Adams is fixing to
visit relatives in Carter county in
a few days. Sorry to give her up.

Preaching second Sunday in
August at Forest hill by Wm. Cop-
ley. Everybody invited.

Our school is progressing nicely.
Prof. Hamp Muncey, teacher.

Miss Birdie and Vina Rose made
a flying trip to Louisa Sunday
evening.

William Shannon is on our
streets today.

Little Andy Webb, of Oliveville,
still makes frequent visits at Cory
Adams.

Mr. Genie Carter, of Sand
Branch, was visiting relatives last
Sunday eve at Dredfield.

Gus Dean and Bill Carter was on
our streets today.

Miss Cerilda Carter, of Prosper-
ity, is visiting relatives at Dredfield.
Let us hear from Violet again.

Success to the News is the wish
of SNAP JACK.

The success of Mrs. Annie dea, of
McKeesport, Pennsylvania, in the re-
covery of her children from the ter-
rible disease of cholera, has been
undoubtedly of interest to many
mothers. She says: "I spent several
weeks in Johnston, Pa., after the great
dread, on account of my husband being
employed there. We had several chil-
dren with us, two of whom took
cholera very badly. I got some of Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy from Rev. Mr. Chapman. It
cured both of them. I knew of several
other cases where it was equally suc-
cessful. I think it cannot be over-
estimated and cheerfully recommend it." 23
and 50 cent bottles for sale by A. M. Hughes.

INEZ.

The health of the people is gen-
erally good in this little hamlet.

Crops are fine in this neighbor-
hood.

L. B. Payne and his accom-
plished sister, Laura, of Warfield,
are visiting friends and relatives
here.

The basket meeting held in the
grove below town on last Sunday
was a grand success.

G. W. Wood, Mike Ross and Jesse
Preston, who were thrown from the
roof of J. C. Newberry's new
residence is convalescing nicely.

Circuit Court convenes here next
Monday, August 6th.

Quite a large delegation of ladies
and gentlemen from Peach Orchard
attended the basket meeting
on last Sunday.

Dr. A. D. Spear has returned
from Dingus, W. Va., where he
has been working his profession.

Nearly all the public schools in
the county have been commenced.

Since Martin county is entitled
to the next representative in the
Legislature why not give it to Hon.
McKirk.

The public school begins here
Aug. 6th with Prof. P. F. Ward,
principal and Miss Josie White
Assistant.

EDENITE.

Mr. J. C. Boswell, one of the best
known and most respected citizens of
Brownwood, Texas, suffered with
diarrhoea for a long time and tried many
different remedies without benefit, until
Chamberlain's Colic, Cholera and Di-
arrhoea Remedy was used; that relieved
him once. For sale by A. M. Hughes,
Louisville, Ky.

BONANZA, KY.

The present rains are causing
crops to look fine.

Hon. Joe M. Kendall passed here
last week enroute to Prestonsburg.
Joe was glad to meet his friends in
Floyd county.

Hon. James Hatcher and son
were in town Monday.

Quite a number of the citizens of
this place attended the trial of Wm.
Osborne, at Prestonsburg Monday,
for drinking spirits at church Sat-
urday.

Our school is now in progress
with 45 pupils in attendance.

The United Baptists of this place
held a communion meeting Sat-
urday and Sunday. There were
about 700 people present Sunday,
and just before the meeting closed
a young man named Lewis Howard,
was standing near the church
house talking with a young girl
when suddenly he thrust his hand
into his inside breast pocket and
there was an explosion of a pistol.
It had shot the boy in the right
shoulder, the ball lodging therein.
The noise of the pistol created a
great deal of excitement at first, but
it was thought the wound was not
a serious one. However, it being
at the present season of the year,
if not attended to closely it may be
a fatal wound. The boy was said
to have been under the influence of
intoxicating liquor at the time.

IRISH CREEK.

Sorry to note the illness of Mr.
Lisa Haws' family. Miss Davie
died Saturday. The others are im-
proving.

C. Robert's wife is on the sick
list.

Born to the wife of S. Carter, a
fine boy.

Sabbath School on Irish creek is
progressing nicely with Wm. Jor-
day as Supt.

Charley Roberts says when he is
elected Assessor he is going to see
what fine grub he can have to feed
his neighbors. "Pup" thinks Mrs.
Arrington will have that fine grub
to cook for her neighbors.

Married, July 20th, Mr. E.

I am glad to say that the Electro-

and illness, the result of typhoid
fever, as well as catarrh. Have
used it in the family from mother-
in-law 73 years old down to the ba-
by, used it on the baby while teeth-
ing and it worked like a charm.
For throat trouble we have never
found anything to equal it. Sev-

Brain Congestion and Vertigo
Cured with Electropoise.

Sirs: Last July I was taken with
vertigo, a congestion of the smaller
blood vessels of the brain (hyper-
emia). I could not study; every-
thing I ate disagreed with me; at
last I ate no solid food, but even
soups and liquid food did not
agree with me; I was induced to
try the "Electropoise;" in one
night's time it relieved the brain
congestion and vertigo. I began
the next day to study; I ate from
that time what I pleased, and since
then I have been a comparatively
well man. REV. GEO. H. MEANS,

I am much pleased with my ex-
perience with the Electropoise, and
believe it in advance of any known
remedy in theory for the restora-
tion of the normal condition of the
